

ISL NEWS

**Proceedings of the 26th World Congress
of Lymphology
Progress in Lymphology XXVI
(December 2018 – anticipated publication date)
September 25-29, 2017 • Barcelona, Spain**

DEADLINE: October 31, 2018

The instructions for submitting manuscripts for publication in the 26th World Congress of Lymphology Proceedings to be published as a supplement to the journal *Lymphology* are available upon request to lymph@email.arizona.edu. The deadline for submitting manuscripts is **October 31, 2018**. Articles must be submitted as a print-ready PDF via e-mail to lymph@email.arizona.edu. All manuscripts must have been presented at the Congress either in poster or oral format.

In addition, in accordance to a motion passed by the General Assembly at the 15th International Congress of Lymphology, **A COPY OF THE PROCEEDINGS MUST BE PRE-PAID IN ORDER FOR YOUR MANUSCRIPT(S) TO BE PUBLISHED.**

Proceedings cost

Laminated cover (perfect bound) – \$95
(includes postage & handling)

Proceedings may also be purchased using **PayPal**. To pay invoice by PayPal (www.paypal.com), sign in to your personal PayPal account at www.paypal.com and send payment to grace@surgery.arizona.edu (International Society of Lymphology). You can pay either using a credit card or your bank account. Add in Note section “Barcelona Proceedings”.

Articles are accepted for publication on the condition that they are contributed to the 26th International Congress of Lymphology Proceedings only and that no substantial part has been published elsewhere. The general style of the manuscript should be in accordance with *Lymphology* and the Style Manual for Biological Journals, 2nd Ed., published by the American Institute of Biological Sciences, 2000 P Street, N.W., Washington, DC, USA, 20036.

Form and Style

3-page manuscripts (**10 page maximum** for multiple submissions by same author) should be submitted as an e-mail attachment (PDF print-ready format) and e-mailed to **lymph@surgery.arizona.edu**. E-mail, print mail address, and telephone and fax numbers also should be included in the text of the e-mail as well as in the attachment.

**THE FIRST LINE OF THE
MANUSCRIPT SHOULD PRESENT
THE TITLE OF THE PAPER**

The second line should contain the name of author(s), with first and middle initial.

The third line should contain the name of the department and institution in which the work was done.

References:

References should be numbered consecutively as they appear in the text and names of up to three authors are requested after which “et al” is preferred.

Sample arrangement:

Article: Miller, RA, OH Smith: Lymphocyte function. *New Engl. J. Med.* 253 (1965), 72-75.

Book: Allen, EV, NW Barker, EW Hines: *Peripheral Vascular Disease*. Saunders, Philadelphia, 1955.

Chapter: Witte MH, DL Way, CL Witte, et al: *Lymphangiogenesis: Mechanisms, significance and clinical implications*. In: *Regulation of Angiogenesis*. Goldberg ID, EM Rosen (Eds.), Birkhäuser Verlag Basel/Switzerland 1997, pp. 65-112.

(photographs, line drawings, graphs etc.) should be embedded in the text, preferably on the same page where they are first discussed.

E-mail: lymph@surgery.arizona.edu

*Footnotes:*

Footnotes should be avoided. Please group footnotes together at the end of your manuscript before the reference section or incorporate the information in the text material itself.

Abbreviations:

Standard abbreviations should be used consistently. Unusual or coined abbreviations should be spelled out the first time in the text with the abbreviation following in parenthesis.

TABLES AND ILLUSTRATIONS

Tables and illustrations should be embedded throughout the text, preferably being included on the same page where they are first discussed. They should have a self-contained caption.

Tables:

Tables should be included in the text and numbered with *Arabic* (not Roman) numerals. A brief title should follow the table number. All unusual units of measurement, acronyms and abbreviations should be explained in a legend at the bottom of the table.

Photographs/line drawings:

Responsibility for obtaining prior permission in writing for reproduction of illustrations, or any other material, taken from published works is assumed by the author. A copy of the permission should accompany your manuscript. Black and white images

44th European Congress of Lymphology and LYMPHO 2018

September 21-22, 2018

Prague, Czech Republic

Assoc. Prof. Martin Wald, MD, PhD

President of the Congress

President of the Czech Society of Lymphology

Website: www.esl2018.com

CONFERENCE VENUE

Faculty of Architecture

Czech Technical University

Thákurova 9, 166 34 Prague 6, Czech Republic

www.fa.cvut.cz

MAIN TOPICS

- Basic lymphology
- Imaging of the lymphatic system
- Experimental lymphology
- Extracellular matrix, interstitial space and hydromechanics of oedema fluid
- Measurement of oedema
- Inflammation and lymphatic insufficiency
- Lymphatic insufficiency and lymphoedema
- Fat tissue and lymphatic insufficiency
- Lipedema
- Venous diseases and lymphatic system
- Overgrowth and adipose tissue in Pediatrics
- Conservative treatment for lymphatic disorders

Permission granted for single print for individual use.

Reproduction not permitted without permission of Journal LYMPHOLOGY.

- Surgery and microsurgery in lymphatic insufficiency, lymphoedema and lipedema
- Complications in lymphoedema
- Treatment complications
- Quality of life issues in patient with lymphoedema

In addition to main lectures, the congress program offers discussions with experts from Europe and around the world. This provides a unique opportunity for members of the medical community across the medical field to gain up-to-date information concerning diagnostics, screening, and conservative as well as surgical treatment of lymphatic disorders/lymphoedema. There are actually only few clinical fields in which this issue is not involved.

**45th Congress of the European Society
of Lymphology
May 4-6, 2019, Brussels, Belgium
“Lymphology Is Not Only Lymphedema”**

The members of the Belgian Society of Lymphology (and of the Group R&D Clinical Applications of Fluorescence Imagings) are pleased to invite you to the 45th Congress of the European Society of Lymphology taking place in Brussels May 5-6, 2019, with our annual meeting.

In the framework of parallel sessions, round table sessions and workshops, diagnostics, screenings and conservative as well as surgical treatments of lymphedemas will be presented and discussed... but with a special focus on the personalized approach to each patient.

Because lymphedemas are frequently secondary to surgery for cancer, parallel session will also be organized for the physicians, surgeons and physical therapists involved in the pre-therapeutic, peri-therapeutic and post-therapeutic managements of cancers and of lymphatic metastasis and due to its growing interest, with a special focus on Near Infra-Red imaging techniques.

In order to successfully realize these intentions, the Organizing Committee thus invites you to lend your support by submitting abstracts on the Congress topics with contributions for discussion and with instructive casuistics.

Producers and distributors at the congress will have an opportunity to approach effectively the lymphological community, to introduce innovations, or to highlight advantages of their products.

I am looking forward to seeing you at the congress.

Prof. Pierre Bourgeois, MD, PhD
President of the Congress
President of the Belgian Society of
Lymphology

Contact for more information:
pierre.bourgeois@bordet.be

Important deadlines:

Early Bird Registration: 12/31//2018

Submission of abstracts : 12/31/2018

Notification of acceptance : 1/15/2019

General lymphology

- Lymphatic anatomy, physiology and pathophysiology
- Lymphatic system, fatty tissues and lipedema
- Lymphatic system diseases: epidemiology, immunology and genetics
- Lymphatic system and sports
- Lymphatic system and infections
- Experimental lymphology

Lymphatic system and lymphedemas(/lipedemas)

- Lymphedemas(/lipedemas): surgical management
- Lymphedemas(/lipedemas): conservative management
- Lymphedemas(/lipedemas): medical management
- Lymphedemas(/lipedemas): socio-economic outcomes

Lymphatic system and cancers

- Imaging of-for the lymphatic metastasis
- Surgery of lymphatic metastases
- Irradiation of lymphatic metastases
- Organ reconstructions and lymphatic system
- Lymphedema prevention

NEW MEMBERS

Luca Roncati, MD, PhD
 Department of Diagnostic and Clinical
 Medicine and of Public Health
 University of Modena and Reggio Emilia
 Policlinico Hospital
 Modena (MO), Italy

Narayana Subramaniam, MS MRCSEd
 FICRS
 Department of Head and Neck Oncology
 Amrita Hospital
 Kochi, India

Yushi Suzuki, MD
 Yokohama Municipal Citizens Hospital
 Department of Plastic and Reconstructive
 Surgery
 Yokohama-shi, Kanagawa-ken, Japan

Art. 6-ISL Constitution: *Membership in the Society can be obtained on the basis of a written application. Names of new applicants will be published in the Society's Bulletin [ISL News]. Any member who objects to the admittance of a candidate must state the objections in writing to the Secretary-General no later than one (1) month after publication of the Bulletin [ISL News]. The reasons for the objection must be stated...*
