DISCOVER GROUNDBREAKING ADVANCES IN LYMPHOLOGY IN THE MEDITERRANEAN BEAUTY OF ANTALYA!

Dear Colleagues,

We are delighted to invite you to the 30th ISL Lymphology Congress, organized by the International Society of Lymphology (ISL), which will be held in Antalya from October 15-19, 2025 (www.isl2025lymphology.org).

This congress will address basic topics such as lymphatic anatomy, physiology, and genetics, as well as fundamental multidisciplinary fields, including lymphedema, lipedema, phleboedema, cancer rehabilitation, pediatric lymphedema, and wound care. Our scientific program will feature a wide range of up-to-date information on all diagnostic technological advancements, imaging devices, and conservative, interventional, and surgical approaches, as well as compression therapies, for lymphedema, lipedema, phleboedema, and cancer rehabilitation. Additionally, comprehensive sessions will cover compression garments, the role of the microbiome, vitamins and nutritional supplements, device-based therapies in rehabilitation and complementary/alternative therapies, which play a significant role in lymphologic diseases and related conditions.

This international event will consist of keynote lectures, panels, educational workshops, interactive sessions, poster-oral presentations, and meet-the-expert sessions of interest for professionals, clinicians, and scientists. Workshops and courses will be organized on imaging and differential diagnosis of lymphatic disorders and lipedema, both surgical and non-surgical treatment options, wound care, and complete decongestive therapies for lymphedema in different regions. Furthermore, awards will be presented for oral and poster presentations to researchers working in basic, medical, surgical, and imaging fields.

With its historical landmarks stretching back to ancient times, stunning beaches, and unique Mediterranean climate, Antalya offers a perfect destination for an enjoyable international gathering. Here, you will have the opportunity to both refresh your knowledge through a scientifically rich program and explore the natural and cultural wonders of the area. Engaging social programs and pre- and post-congress tours to nearby spectacular locations will also be organized throughout the congress.

This significant meeting, aims to cover a wide range of health professionals working in lymphology, including physiatrist, physiotherapists, angiologists, vascular and plastic surgeons, nurses, breast surgeons, wound specialists, oncologists, geneticists, and psychologists, and will display a multidisciplinary perspective across all areas of lymphology with the participation of esteemed national and international speakers. We hope you will reserve space in your calendar for this valuable event and join us!

We wholeheartedly believe that your participation will add value, enrich our scientific content help to make further progress in advancing all diagnostic and therapeutic approaches to improve patients' quality of life.

Let us gather to share knowledge and experience in lymphology and related fields, enhance our practical skills in workshops and courses, set future strategies with evidence-based diagnostic and therapeutic approaches, and strengthen international collaboration!

We look forward to meeting you in Antalya at the ISL Congress on October 15-19, 2025..

Warm regards,

Congress President
 Prof. Dr. Pinar Borman

Discover Groundbreaking Advances in Lymphology in the Mediterranean Beauty of Antalya!

MAIN TOPICS

- Anatomy and Physiology
- Assessment and Monitoring
- Breast Cancer Related Lymphedema
- Cancer Rehabilitation (Pain, Osteoporosis)
- Complete Decongestive Therapy, All Aspects
- Compression Therapies
- Complementary and Alternative Methods for Lymph-Edema and Lipedema
- Diagnosis
- Differential Diagnosis
- Early Detection and Intervention
- Education
- Etiology / Epidemiology of Lymphedema
- Exercises and Sports, Recreational Therapies and Aqua Therapies
- Experimental Treatments & Immunotherapy
- Genetics and Epigenetics
- Genital Lymphedema
- Gynecologic Cancer- Related Lymphedema
- Head and Neck Lymphedema
- Imaging Modalities
- Kinesiotaping
- Lipedema
- Lipedema Surgery
- Lymphatic Development and Pediatric Lymphology
- Laser Therapy
- Pneumatic Compression Devices
- Prebiotics and Probiotics
- Stem Cell Therapies
- Regenerative Therapies

- Lymphedema
- Multidisciplinary Approach to Difficult Cases
- Nonsurgical Treatment of Lymphedema
- Novelties in Pressure Garments
- Nutrition and Diet For Lymphedema and Lipedema
- Obesity
- Outcome Measures in Lymphedema
- Patient Education in Lymphology
- Pain Therapies
- Pediatric Lymphedema
- Pheloboedema and Venous Insufficiency
- Physical Modalities for Lymphatic Disorders
- Psychological Aspects
- Quality of Life
- Screening and Follow-up
- Secondary Lymphedema
- Self-management
- Setting Up Lymphedema Clinics
- Surgical Treatments for Lymphatic Disorders
- Technological Application
- The Voice of Patients
- Treatment for Main Complications of Lymphedema
- Vascular Malformations
- Veins and Lymphatics
- Wounds & Wound Care
- Electrotherapy in Cancer Pain
- Radiofrequency Therapy in Cancer Pain
- Ozone Therapy
- NSAII and Myorelaxants
- Osteoporosis in Cancer
